

ELMET

TECHNOLOGIES

Performance Metals for Defense & Aerospace

- Precision machining of molybdenum, tungsten, their alloys and other refractory metals
- Industry leading forming, fabrication and assembly services

Elmet Technologies is a United States owned and operated fully integrated manufacturer of high-performance molybdenum and tungsten materials and products. Our expertise extends from high purity metal powder production through advanced forming, fabrication and precision machining capabilities. Fully integrated manufacturing provides a unique level of process control that enables consistent, reliable, high quality production for our customers. We offer a great customer experience with a friendly service team, accessible engineering support, and industry leading delivery times.

- Kinetic energy penetrators
- Near net shape preforms
- Fragmentation sleeves
- Molybdenum and tungsten metal powders
- High performance diode studs
- X-ray shielding
- Wire, sheet, and components for microwave tubes

About Elmet

- USA-owned small business
- Over 80 years of manufacturing experience
- On-site lab supports R&D and production activities
- Large engineering staff
- AS9100, ISO9001 & ISO14001
- DDTC 2345 & ITAR Registered

Elmet Technologies is a fully integrated manufacturer of the refractory metals molybdenum, tungsten and their alloys. Our world-class facilities produce plate, sheet, rod, and wire from molybdenum and tungsten powder manufactured at our Lewiston, Maine facility. In addition, Elmet offers industry-leading machining, fabrication and assembly capabilities. With more than 300,000 square feet at our facilities located in Maine and Georgia, USA, Elmet services the aerospace, defense, flat panel display, semiconductor, medical, high-temperature furnace, and other markets. Elmet is a USA-owned small business with over 85 years of molybdenum and tungsten production and processing experience. Our quality systems are AS9100 and ISO9001 certified. We are DD2345 and ITAR registered. For more information about Elmet, please visit us online at www.elmettechnologies.com.
