Elmet Technologies has reviewed its supply chain thoroughly regarding policy initiatives concerning sustainability and human rights that are being implemented around the world with some specifically addressing forced labor.

Elmet Technologies can confirm it is in compliance with the Uyghur Forced Labor Prevention ACT (UFLPA). UFLPA establishes a presumption that the importation of products mined, produced, or manufactured wholly or in part in the Xinjiang Uyghur Autonomous Region of the People's Republic of China, or produced by certain entities, is prohibited by Section 307 of the Tariff Act of 1930 and that such goods, wares, articles, and merchandise are not entitled to entry to the United States.

We can also confirm there is no risk to our supply chain when the law is enforced on March 18, 2023.
